

## ONAPSIS SECURITY ADVISOR

# The Next Best Thing to Having an Onapsis Expert in Your SOC

## Accelerate Your SAP Security Journey with AI-Powered, Tailored Guidance Based on 14+ Years of SAP and Cyber Experience

Understanding your organization's current state of SAP security, how to continuously improve, and how to then effectively communicate all of this to the C-Suite and Board can be challenging tasks. However, as part of your subscription to Onapsis, the Onapsis Security Advisor tackles these challenges for you, providing a single, high-impact view of your current security standing and tailored, actionable guidance for how to improve. Powered by our AI engines, dynamic visual comparisons of your state over time and against industry peers make it effortless to track your progress with data and report out effectively to leadership.

Spend less time assessing risk and more time acting on it. With the Security Advisor, you get everything you need in one place to establish better security goals, prioritize which actions to take next, and guide your ERP security journey.

## Benchmark Your Organization Against Others

- Get a high-impact visual of how your ERP security compares to other organizations, including industry peers, security leaders, and companies who have just started their journey
- Leverage these comparison points to showcase success to leadership or help make the case for needing more resources or investment

## Identify Gaps in Visibility and High Impact Areas of Improvement

- Quickly identify assets and vulnerability checks that aren't included in your assessments to ensure you have the most complete view of your attack surface and minimize unaddressed risk
- Receive customized recommendations for actions you can take that will have the highest impact on your security standing

## Communicate Security Progress to Leadership and Other Stakeholders

- Visually showcase how your security standing is improving over time to easily demonstrate success of your team
- Response metrics make it easy to summarize and track the effectiveness of your remediation efforts over time
